

# rhAmpSeq™ CRISPR Analysis system

An end-to-end solution to design, deploy, and analyze next generation sequencing data for on- and off-target interrogation after your CRISPR experiment.

## rhAmpSeq CRISPR Panels

Build your custom panels online for CRISPR on- and off-target editing analysis in a variety of species.

## rhAmpSeq CRISPR Library Kit

Prepare sequencing-ready amplicon libraries for targeted sequencing on Illumina® NGS platforms in just two simple PCR steps.

## rhAmpSeq CRISPR Analysis Tool

Obtain publication-ready data using our advanced cloud-based data analysis pipeline without the need for coding or advanced bioinformatics experience.
