Archer[™] MBC Adapters A25 - A32 for Illumina[®] Platform

PI-SA0043

Product Description

The Archer Molecular Barcode (MBC) Adapters are used in conjunction with the Archer FusionPlex[™] or VariantPlex[™] kits in order to create target-enriched libraries for next-generation sequencing on the MiSeq[®] and NextSeq[®] platforms.

Archer Illumina assays utilize dual-index barcoding to distinguish between samples. The first index is added just before Adapter Ligation and is embedded in the Archer MBC Adapters. The second index is added in Second PCR and is embedded in the Illumina Index 1 Primers within the Second PCR reaction.

In addition to this index, Archer MBC Adapters contain molecular barcodes – unique nucleotide sequences that can be used to differentiate individual nucleic acid molecules in a sample. Using Archer Analysis, individual MBCs in a sequencing reaction can be identified and the reads de-duplicated. MBCs can also be used to correct for late-cycle PCR artifacts or sequencing errors, enabling high-confidence calling of gene fusions, SNPs and other mutations.

For Research Use Only. Not for use in diagnostic procedures.

Kit Contents

Part #	Name	Quantity	Storage Conditions
SA0043	· ·	Barcoded adapters with a total of 8 different index sequences	2°C to 8°C

Additional Information

	MBC Adapter	Index
	Illumina_RBC1_BC25	AGAGACCT
	Illumina_RBC1_BC26	TGTGCATG
Illumina Barcode Adapters	Illumina_RBC1_BC27	ATAAGCGG
A25 - A32 (SA0043)	Illumina_RBC1_BC28	CATTCCAC
	Illumina_RBC1_BC29	TCCATGTC
	Illumina_RBC1_BC30	CATGTGAC
	Illumina_RBC1_BC31	AGGAGATC
	Illumina_RBC1_BC32	GTCAGTTG

Limitations of Use

For Research Use Only. Not for use in diagnostic procedures.

This product was developed, manufactured, and sold for in vitro use only. The product is not suitable for administration to humans or animals. SDS sheets relevant to this product are available upon request.
